# CI Carpet Tile / Custom Design Portfolio

The Design Portfolio features a wide range of Custom design inspirations created by our in-house design team to best suit modular carpet tile installations.  The portfolio will assist in developing a custom color and/or pattern combination perfectly suited to the Architect/Designer's interior concept.

## How to use the Portfolio

Upon selection, please contact your local Carpets Inter Representative who will assist you accordingly. If you have a particular color reference liked from one of our standard collections, we will match it accordingly, otherwise you may pass any material color references to us to match by using our nearest standard Solution Dye Yarn Fibers.

Once received by our Design Studio, we will prepare a computer-generated design simulation for pre-approval, at which point you may indicate which yarn color (i.e., Yarn A, Yarn B, etc.) goes in which position within the design.

After approval a non-quality M-Tuft sample will be provided within 10 working days for color and textural pattern review.

## Tile Sizes

Most designs are offered in either of our two standard sizes: 50cm x 50cm and 25cm x 100cm. If the selected design is only featured in one size, that's because we don't think the design lends itself to any other size.

We do have the capability to manufacture modules @ 60cm x 60cm, 50cm x 100cm, 91cmx91cm and 100cm x 100cm, although again not all designs shown lend themselves to the larger sizes, such we would aim to adjust accordingly to suit each individual project.

## Tip Shearing

To create an additional level of pattern sophistication, some high/low Loop Pile textures can be 'tip-sheared'. This process creates a darker 'shade' of the single yarn color for two-tonal effect. Not all designs can be tip-sheared and the maximum 'tip-shearing' is <40% depending on the design.

All designs in the brochure are custom-made to order. Selecting a custom design requires a nominal minimum order quantity of not less than 1000m$^2$ per single item. Please consult your local Carpets Inter  representative for more information on creating a unique interior aesthetic....

# We will RECYCLE OVER 1,000,000,000 discarded PLASTIC BOTTLES by 2025

## EcoSoft®

### Sustainable Performance and Value

EcoSoft® is made from 80% post-consumer material reengineered from millions of discarded drinking water bottles, plus 5 to 10% post-industrial recycled PET. This environmentally friendly backing not only meets all the stringent performance criteria required for modular carpet, but consistently out performs conventional PVC and bitumen hard back, as well as urethane cushion back in terms of durability, underfoot comfort, acoustical propensity and indoor air quality.

Primary Backing
Pile Yarn
Synthetic Precoat
Synthetic Binder
EcoSoft Backing
EcoSoft uses roughly 50 x 550 ml.
recycled PET bottles for every square meter of product.

NOISE REDUCTION

### EcoSoft® Outstanding Features

> 85% recycled content backing

> 100% recyclable

> No PVC, Bitumen or Fiberglass content

> Suitable for installation onto wet slab up to 99% RH

> Superior Acoustical Propensity - outperforms hardback by 150% to 175% per

Green Star IEQ10 internal noise level requirements

> Excellent Dimensional Stability BS EN 986 less than 0.15%

> Cushioning reduces wear and tear, fiber crush and user fatigue

> EcoSoft® backed modular carpet product contributes up to 6 LEED points

In view of the superior properties outlined above, modular carpet with EcoSoft® backing is the ideal choice for Education facilities.

## EcoSquare®

### Sustainable Performance and Value

EcoSquare® is another step in Carpet Inter's ongoing Sustainability and Reclamation program, repurposing waste material into a recycled high performance modular carpet backing.

Primary Backing
Pile Yarn
EcoSquare®
Reinforced Recycled Backing
### EcoSquare® Outstanding Features

> 63.5% recycled content backing

> 100% recyclable

> Meets Greenstar best practice guidelines

> Free of toxic plasticisers and stabilisers

> Excellent Dimensional Stability BS EN 986 less than 0.15%

> EcoSquare® backed modular carpet product contributes up to 5 LEED points

In view of the superior properties outlined above, modular carpet with EcoSquare ®backing is the ideal choice for Education facilities.
