

EcoSquare[®]

EcoSquare marks a new era in the development of high performance and environmentally sustainable backing.

Carpets Inter[®]

EcoSquare® is a new generation of carpet tile backing, made with 63.5% recycled content. EcoSquare tiles are 100% recyclable.

Sustainable Performance and Value

EcoSquare is another step in Carpet Inter's ongoing Sustainability and Reclamation Program, repurposing waste material into a recycled high performance tile backing.

EcoSquare® Outstanding Features

- > 63.5% recycled content backing
- > 100% recyclable
- > Meets Greenstar best practice guidelines
- > Free of toxic plasticisers and stabilisers
- > Excellent Dimensional Stability BS EN 986 less than 0.15%
- > EcoSquare backed carpet tile product contributes up to 5 LEED points

Carpet tiles with EcoSquare backing are the ideal choice for high traffic use locations including commercial offices, malls, convention centers, education facilities, airports, hotels, and public spaces.
